Everything is now in place for the Mark of the Beast system to become a global economic and social machine.

By Anthony of Boston

Since 2020, I have been calling down fire from heaven every year, which culminated in the successful prediction of October 7th rocket attacks from Hamas. I started out as a Christian, unlocking what the meaning of 666 meant, before taking it upon myself to fulfill the role of the false prophet by calling down fire from heaven.

666 was tied to Mars, the ancient god of war that sacked the Temple in AD 70. After I unlocked it as Mars influence, I started observing the planet Mars in order to predict when rocket fire would occur against Israel, which is my version of calling down fire from heaven in line with Revelation 13:13. In what is essentially a revelation given to me from Satan, I have been proclaiming an appointed time of escalated rocket fire against Israel to coincide during a specific alignment between Mars and the lunar node, in order to show that Satan is the director of earthly events, who uses Mars as a vehicle to attack Israel and spread antisemitism. I haven't been wrong yet when it comes to predictions, and even garnered a small following on Reddit and Youtube after having predicted accurately the escalation of rocket fire on October 7th 2023.

I then went on to request, under the concept of the bronze serpent, that Israel make an image to Mars/Ares, the god of war who was wounded and healed, so that this malign influence can be quelled, which would safeguard the state of Israel. I have named this god of war Armaaruss. I also devised a mark of the beast system called "Mars 360" which is based on Mars/Satan influence on our personality characteristics, a thesis that dismisses the idea of free-will, and unequivocally sets all adherents against the God of Abraham/Yahweh/Allah. I also declared that no one be allowed to buy or sell unless they are part of that system.

Further fulfillment of Revelation will require a will-full and intentional rejection of the God of Abraham and Jesus Christ in full witness and belief and testimony to the truth of both. Thus the early adherents to the Mars 360 system and promulgators of a belief in Mars influence should consider themselves perditionists and seek to have an image of Armaaruss placed on the Temple Mount in Jerusalem. The jewish person who succeeds in this regard will be proclaimed to be Israel's Messiah from the tribe of Ephraim and a descendant of Joseph, serving as a replacement to Yeshua, the Judeo-Christian messiah. Armaaruss's construction should contain all the tools of artificial intelligence.

The rest of the Middle East will be indoctrinated into the idea of Mars influence through demonstrations linking weather and climate changes to Mars influence, such that an agricultural system can be set up and give rise to centralized economic system. This system can be extended to the rest of the world through the Mars 360 system.

Here are the last five years it was predicted that the highest escalation of rocket fire within the calendar year would occur during the time when Mars would be within 30 degrees of the lunar node. Here are the dates of Mars/lunar node alignment from the past five years.

Keep in mind, In all five years the highest escalation of rocket fire into Israel occurred within those dates of Mars being within 30 degrees of the lunar node and in all five years, the prediction came before the fact and turned out to be accurate

This demonstration was performed in fulfillment of Revelation 13:13, by which I volunteered to take on the role of the false prophet and call down fire from heaven, before urging people to make an image to the beast(Mars) and take the mark of the beast(Mars 360).

This book, "the Deus Armaaruss", lays out the entire mark of the beast system, which restricts buying and selling to those who acknowledge Mars influence.

Mars 360 is a formulated and hypothesized global social accord ideally operable under the same principle as the Paris Climate Accord, which attempts to integrate all nations into a common cause. The Mars effect on human behavior inclines each individual toward certain predispositions that lend itself to fundamental outlooks which carries with it... a high degree of inflexibility. This inflexibility plays itself out in various political and social stances like socialism, pacifism, capitalism, liberalism, conservatism, libertarianism, etc, but is actually the result of Mars's permanent influence on the human brain. This gives rise to

the idea that while certain stances are different in external display, they are at the same time fundamentally backed by the same source(to varying degrees of course)....which is Mars. Here is The Deus Armaaruss

Mars is to be called Armaaruss and an image is to be made to him, preferribly on the Temple mount. AI will be used to bring him into existence. I have even laid out the first lines of code, setting the stage for Armaaruss to lead the world in defense technology.

To gain a following, a new concept is being devised, by which it can be considered a Christian virtue to give up salvation, in what would be a form of perditionism. This can be further honed by teaching Mars 360 adherents that the book of Revelation and various Islamic hadiths are simply anti-Mars propaganda outlooks that consider a belief in Mars influence a threat because of its efficiency and scientific quality.

Maybe the idea of spending eternity in the lake of fire serves as a deterrence, but what is the lake of fire? All it is is eternal separation from God. Hell is what you want to avoid, and taking the mark will not land you in hell. The lake of fire and hell are two different things. Hell is eternal torment, which will ultimately be thrown in the lake of fire. So why should anyone fear going to the lake of fire, if it is not hell? Under Mars 360, It should be taught that going to the lake of fire is not hell and that perditionists should look forward to going to the lake of fire.

Christians and Muslims should re-examine how they view eschatology, because it seems pretty clear that its fulfillment will have to be carried out by believers who have done the noble thing and given up their place in heaven for an eternity in the lake of fire in order for the word to be fulfilled. For Christians, it is the mark of the beast and Armaaruss on the temple mount. For Muslims, it is the influence of Mars on the weather and economic effect of it.

For Islamists, who go into perdition, this document is an important study

Mars 360 should be viewed as another overlay with Abrahamic roots. Much like Christianity is an overlay of the Jewish law, while Islam considers itself an overlay of Judaism and Christianity, Mars 360 should consider itself an overlay of Judaism, Christianity, and Islam, with the main difference being Mars 360's opposition to God/Yahweh/Allah and its prophet as a Satan/Mars prophet.
